## To Whom It May Concern

### Letter of Recommendation

It is my honor recommendation to Mr. **Mehari Temesgen Damitie** who is graduated in 2022 G.C. from Debre Markos University with Bachelor of Science in Computer Science from Collage of Computing in Institute of Technology.

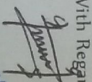

I have known Mr. **Mehari** for four years since September, 2018 and he demonstrated a strong capability in classroom activities. He was my active student in Debre Markos University. He scored best grades for the course I taught him/her. As a lecturer I taught three courses "Object Oriented Programming", "Report Writing in computer science" and "Selected Topics in computer Science" and he score high result for all courses.

He is keen to learn new things and hard working person. Mr. **Mehari** has been students in practical, analytical and theoretical performance. As a result he was one of the few students who have done the best work in his final year project; hence he scored "A" grade.

I know that Mr. **Mehari** is polite, sociable, young energetic, hard worker and dependable and thus I would qualifiedly recommend that he can make a difference as a Computer Science professional if hired at your organization.

I wish his/her success in his/her future carrier!

With Regards
