TO WHOM IT MAY CONCERN

Subject: Letter of Recommendation

I have known Mr. MEHARI TEMESGEN about three academic years in Computer Science Burie campus at Debre Markos University as a course teacher and department head since I joined the department. I have been opportune about him since I taught Computer organization and Architecture, operating Systems and web programming. He has shown extremely outstanding work. He is excellent in these course and areas.

I know him as a department head. Mr. MEHARI TEMESGEN is complete gentleman, punctual, upright and good relationship with his teachers and staff members in the department. He is organized in his goal-setting, yet he has learned to keep his options open for the future. He is intellectual and extremely disciplined in his academic works. His analytic skills are highly developed and always extremely careful in what he does.

I recommend highly that he is truly exceptional, qualified and right persons to recruit in your organization or an aspiring candidate for further higher degree research program in computer science and related fields. Finally, I wish him good luck and success for his future endeavours. If I can be of any further assistance, please do not hesitate to contact me through my bottom addresses.

With best regards!
